Subject:

Appointment of a Pathologist
in Sri Krishnarajendra Hospital
Mysore.

2

Submitted to His Highness.

Government have been considering for sometime past the question of selecting a competent person to serve as Pathologist in the Krishnarajendra Hospital, Mysore and Professor of Pathology in the University, which post has been rendered vacant by the death of Mr. B.G. Sambasivan. I put up herewith certain papers showing the attainments and experience possessed by two German Scientists, viz., Professor Werner Rosenthal and his wife Dr. Erika Rosenthal. I have consulted Dr. Sweet, the Director of Health, who is of opinion that Professor Werner Rosenthal would be a very suitable candidate for the post of Pathologist in the Krishnarajendra Hospital and Professor of Pathology in the Mysore University, and that his wife also could be usefully employed as Organiser of Maternity, Child and other welfare work in connection with the Red Cross Society. The services of both these can be secured at a comparatively low salary. The matter was considered in Council and it was agreed that an offer of appointment may be made to them of a combined salary of Rs.800/- per mensem for both husband and wife with free furnished quarters and first class railway fare from London to Mysore. This has been done and they have been asked to interview Dr. Robinson in England. If Dr. Robinson says they are physically and otherwise satisfactory, we may employ them on these terms for a period of three years in the first instance.

The current year's budget contains no provision of funds for the welfare work on which it is proposed to employ Mrs. Rosenthal. In view of the vast importance of the work to the State, it is proposed to find the necessary funds by levying a small contribution from Village Panchayets, Minor and Major Municipalities.

The action taken and to be taken may be graciously approved.

Mirza M. Ismail

DEWAN.

General and Revenue Secretariat | File No. 1415/54/177 of 193 . | App. F. III—2

Serial No.

Telegrams from the Trade Commr

Two telegrams have been received from the Trade Comr today. In the first, he ~~she~~ has stated that Dr. Robinson saw the Rosenthals on 28th instand and found "health and general considerations satisfactory". The Trade Comr: ~~he~~ solicited orders as to whether he may offer the appointment to them on terms already communicated.

In the second telegram, the Trade Commr: however suggests that further action may be deferred until Dr. Robinson arrives here about the middle of February

The terms offered were

(i) Salary for both husband & wife: Rs800 p.m
(ii) Free furnished quarters
(iii) Term - 3 yrs in first instance
(iv) First class T. A. from London to Mysore

It is stated they want to bring their daughter also - aged 17 yrs. [Whether her t.a. also is to be paid by Govt. is not specifically raised]

E & C

Points for further action

(1) Making provision in the Dept. budgets concerned for salary etc
(2) Asking Village Panchayats & Municipalities to contribute
(3) Engaging quarters & furnishing
(4) Will Red cross Society contribute any portion of cost?

Submitted to His Highness.

I beg to invite reference to my Submission Note dated 21st December 1933 and His Highness's orders thereon, approving of the proposal to employ Professor Werner Rosenthal and his wife Dr. Erika Rosenthal in Mysore Service if they be found physically fit and are agreeable to accept a combined salary of Rs.800/- per mensem (with free quarters and passage charges from London to Mysore).

A proposal was accordingly made to them, and Dr. Fletcher Robinson who was then in England was also asked to interview them and report if they are physically fit and otherwise satisfactory. Dr. Robinson interviewed them accordingly and his opinion is not unfavourable.

I am also submitting herewith for perusal a letter received from Sir Henry Gidney, recommending another couple viz., Dr. E. Wolff and his wife for employment here, more or less on similar terms.

I also discussed the matter with Sir Charles Todhunter on his return from South Africa recently. After consideration of all the circumstances of the case, we felt that it would be best to avoid bringing in any of these out-siders at the present time. I have accordingly informed Sir Henry Gidney, as well as Mrs Rosenthal, that local arrangements are being made for the post of Pathologist, etc., and that the proposal to get scientists from outside has been dropped. I submit the papers for His Highness's gracious perusal.

WD 01536—GPB—7,500—5-4-34

Erika Rosenthal-Deussen Magdeburg, April 24th 1934

To His Royal Highness the Maharaja of Mysore
through the hand of Sir Mirza Ismail

Your Royal Highness!

It is the name of my father that gives me the liberty to address Your Royal Highness personally.
From my father I inherited a deep love for India and I daresay it was deepened in seeing that this country would be helpful to Erika Deussen for her father's sake, and I wanted to give my best to this country.

It is something what I have to give and that is the second reason which encourages me to write to Your Royal Highness: an excellent medical education, a good experience in the special tasks of Social Hygiene especially Mother and Child Welfare and the sincere wish to use my faculties to the very best. Sir Mirza Ismail, to whom I am much obliged for the interest he took in our affairs can give you details about opinions of authorities on me and my work.
All what I heard of Mysore made me feel happy that I was going to serve this advanced State and it was my ambition to try to organise Mother and Child Welfare in a way that this organisation might be a model as are m many other institutions of the State. I know my being married and having three children myself, is a great help in earning the confidence of the mothers which is absolutely necessary for this sort of welfare work.
We thought that everything about our coming to Mysore was settled and so we were deeply touched in hearing that local arrangemants have been made, so that there is no room for our work in the staff of the State.

But my conviction that I might do extraordinary good work in this special task is so strong and my wish to fulfill this task is so sincere and ardent that I ask Your Royal Highness:

If there is no possibility to arrange these matters in the ordinary staff of the State: would it be possible to found this organisation as a private gift of Your Royal Highness for the benefit of the women and children of the State, and by trusting me with this task give a splendid memorial Paul Deussen, the man who tried to make Europe see India and Indian philosophy with Indian eyes, and who esteemed India to be the fatherland of his soul.

Most respectfully

Erika Deussen.

Dr. Erika Rosenthal-Deussen
Gewerbemedizinalrätin

MAGDEBURG, DEN APRIL 24th 1934
Brückestraße 1 / Fernruf 31678

To Sir Mirza Ismail .Mysore.

Your Excellency!

The cablegram we received April 15th from the Chief Secretary of the State of Mysore was a sort of bombshell to us.After the preliminaries we felt perfectly sure about our going to Mysore and were waiting for a definite contract.Meanwhile we had begun preparations for our tasks:my husband in studying the special questions of tropical Pathology,I myself in studying books about Mother and Child Welfare in India.And I daresay we were longing to go,for life here means absolute hopelessness for us. Imagine having been persons of rank and society and using our capacities in science and medicine and now at once having become outcasts,only on account of a jewish greatgrandmother and of my husband's jewish extraction.

I know we have to be very thankful to you,for you have done much for us and I hardly dare to trouble you once more:is there no possibility for our serving the State of Mysore?Though I am quite aware that my special faculties would be in organising Welfare work,I would be ready to take a doctor's place in a women's hospital,and my medical experience would enable me to do good work in such a place.We know that the age of my husband is a difficulty in giving him a post in a staff-though you will know from Dr.Robinson's report that for his age he is very well off.Would there not be the possibility of giving a post only to me and taking him as a guestprofessor to the country on his own risk?

I am aware that you want to help us and this encourages me to ask you:please be so kind and submit the enclosed letter to His Royal Highness personally.

Yours thankfully Erika Rosenthal-Deussen

5220 Med.

Vasantha Mahal,

Mysore, 16th May 1934.

PRIVATE SECRETARY MYSORE

OFFICE
17 MAY 1934
No. 3442

My dear Mirza,

Mrs.Rosenthal's letter which you have forwarded with your letter No.3222 of yesterday seems to open up new possibilities.

There were obvious difficulties about the joint appointment the Doctor to Government Service and his wife to service under the Red Cross in view of his being so very much over age and of her having no knowledge of the Vernacular. What her present letter suggests is an arrangement somewhat on the following lines:-

(1) that you should create an additional appointment in the Women's Medical Service and post her to it,

(2) that you should depute a suitable member of the Women's Medical Service to conduct a bureau of maternity and child welfare under the control of the Director of Public Health in lieu of contributing to the salary of an officer to be employed by the Red Cross, and

(3) that you should employ Dr.Rosenthal as a lecturer at the Medical College on temporary contracts as might be convenient.

I think the reasons underlying these suggestions will be sufficiently obvious. I understand that the Senior Surgeon is extremely short of qualified ladies to be put in charge of his hospitals, and he has recently withdrawn the Lady Doctor lent to the Red Cross for this reason. The maternity and child welfare movement has become too big a thing to be managed by a non-official body with no regular headquarters staff. There is a large amount of financial and statistical work and organisation to be done which are simply being left undone at present. The attachment of the Lady Superintendent to the office of the Director of Public Health would not only give her a better status and improve the quality of her work, but would tend to ensure a large amount of

5220

other work that is now left undone being done by his office, and if you gave Mrs.Rosenthal a definite place in the Government Service on an equal footing with other lady doctors of her qualifications, and employed her husband only on temporary contracts, you would avoid the heartburning that might have arisen out of a scheme under which he was employed as a Professor, but on a different scale from other Professors, and she was at the mercy of a non-official body.

I have submitted Mrs. Rosenthal's letter to His Highness the Maharaja with a draft of the suggestions made above which he desires me to forward to you for such action as you may think fit.

Yours sincerely,

G Rosenthal

NOTE—Contn. Sheet.

WD 01536—GPB—7,500—5-4-34

Submitted to His Highness.

I beg to invite reference to my Submission Note dated 22nd April 1934 in which I reported that the proposal to employ Professor Werner Rosenthal and his wife Dr. Erika Rosenthal in Mysore Service was dropped in the circumstances stated therein.

On further examination, however, it is found that no suitable person is available locally for organizing Maternity, Child and other welfare work, which is now being vigorously pushed forward. It is also necessary that pathological work in the University and the Krishnarajendra Hospital should be entrusted to a person with more experience than Mr. Krishna Rao who is now in charge of it. It is also understood that Dr. Werner Rosenthal is a specialist in serum work and Mrs. Rosenthal in tuberculosis. All things considered, it appears to me that it is best to get over Professor Rosenthal and his wife on the terms already approved by His Highness, viz. a salary of Rs.800/- per mensem for both husband and wife (Rs.500/- for the husband, Rs.300/- for the wife) for a period of three years with rent free quarters simply furnished and first class travelling expenses to Mysore. In the circumstances, I solicit gracious approval of His Highness to further action being taken to employ these two persons.

Mirza M. Ismail

Re: Employment of Rosenthals.

A copy of the letter issued to the Residency is put up for reference. Further action appears necessary in regard to the following points, before formal approval of the Government of India is received and the arrival of the Rosenthals in Mysore.

(1) Provision of funds to meet the salary and passage charges etc., of Professor Rosenthal and his wife. Action may be taken about this in the General Miscellaneous Branch (Medical) in consultation with the Departments concerned.

(2) Provision of quarters for these officers. Correspondence between the Private Secretary to the Dewan and the Railway Agent about the availability of the Loco Superintendent's quarters is put up. Action has to be taken to see if the quarters are furnished and fit for occupation and whether any thing more is to be done.

These two points may, if approved, be urgently worked up further in the Medical Section, pending receipt of a reply from the Government of India about the appointment.

& Cable, (issued)

Serial No.

The main points in the letter of the Rosenthals are:—

(1) Permission to have private practice—
This may be given subject to the condition that it does not interfere with their work.

(2) Transport of scientific instruments—
This may be permitted. The question as to who is to bear the Customs duties may be decided later on.

(3) Passage back to Europe—
If, after 3 yrs, the contract is not renewed, free passage back may be given—

(4) Illness or death of one of the parties—
What the Rosenthals want is not clear. ~~[illegible]~~ In case of illness, the M.S.R. rule applies. In case of death, the surviving wife continues to get the pay fixed for him or her—Viz Rs. 400.

The daughter will of course stay with the parents.

2nd month—

22 of the notes above, where in it is stated that passage for her need not be ~~given~~ paid". The request is therefore for consideration.

(ii) She also wants that questions like passports for India, route to be taken, and declaration for their luggage, to be arranged with the Trade Comr for Mysore in London.

Subd for Orders.

JxmR
28/9/34

Mrs. Rosenthal says —

(i) It will take about 4 weeks after receipt of order of formal appointment before they can embark

(ii) A free passage may be given if possible to their daughter also, as otherwise they are afraid of being able to procure a ticket for her.

(iii) The Trade Comm^r in London may be instructed to render any help needed in getting passports etc.

Re: (iii), there may perhaps be no objection.

Re (ii) Mrs. Rosenthal asked for this on a previous occasion, and the Second Member noted* at the time (3.3.34) that passage need not be paid to the daughter. ⊗ No final decision was however communicated as in the meantime the main proposal to appoint the Rosenthals was itself dropped. The request is for orders.

[The Sanction of the Govt. of India asked for in our letter d. [redacted] has not yet been received, though the Residency have intimated that the G. of I. have been requested to deal with the question as quickly as possible]

Letter no TC/S - Rosenthal dt 25th October 1934 from the Trade Comr for Mysore in London stating that Dr Rosenthal wants him to arrange for some money being paid to him in Colombo, & that he will make arrangements for it being paid through Messrs Coutts & Co if it be in order.

Subd

Dr Rosenthal & his wife expect to leave Hamburg on 17th Nov. 1934;

They want some money being paid in Colombo. As to the amount to be advanced, The T.C. says that he has written to him to let him know as to the exact amount he would require.

The advancing of the amount to Dr Rosenthal is for orders.

JenR
10/11/34

The Trade Comm^r. may perhaps be told that he may arrange for the Steamer tickets two I class for Dr. R. & his wife, & Second class for the daughter — as suggested by him.

About giving them some money at Colombo, the T.C. is prepared to arrange for this also through Coutts if this would be in order. Perhaps he may be authorised to do this up to a specified limit. They may need money for Railway fare, transhipment of goods etc.

From a later letter (P. No. II) dt. 1/11/34 received on 4/11, it is seen that Mr & Mrs Rosenthals have themselves paid the Steamer fare of Rs 2200 and all that they want is to arrange for the payment of Rs to the Trade Comr in Colombo. The Trade Comr has asked to do this.

There is no objection to the payment to the Agent of the Hansa line on Dr.Rosenthal's account, the equivalent of 2200 reichmarks, as an advance pending adjustment towards the cost of passage etc,. I am not sure whether the Trade Commissioner was in order in requesting Messrs Coutts & Co to arrange for this payment at Colombo or whether Coutts & Co will honour such requisitions. The Comptroller may be consulted on this point.

It is understood that Dr (Mrs) Ehrika Rosenthal has been asked to spend a week in Colombo. (Vide letter dated 4th Dec. 193 flagged Y). But nothing is stated in it about Professor Werner Rosenthal.

vide letter

It is for orders as to the date from which Prof Warner Rosenthal is to be given his pay.

KWR.
21.12.34

The points for orders are:—

From what dates Dr Erika Rosenthal & Prof. Werner Rosenthal are to be treated as having joined the service of Mysore Govt? The former has been asked to spend a week in Colombo to study Maternity & Child welfare work there and this raises the issue whether she is to be treated as on duty from date of disembarkation or later date on which she takes up that work. The Professor does not seem to be associated with this & in case he also stays in Colombo for a week how is he to be treated.

They may be treated as on duty for the date they actually take charge here.

June 19th 1933.

C.H.H.-H.-E

Your Excellency,

I thank you for forwarding the account of the life and career of my husband and myself to the authorities of the State of Mysore.

Sir Akbar Hydari wished for certificates and also the opinion of leading English personalities about me and my husband and this I have tried to fulfil.

As it is much easier to send all these things as long as I stay in England I am forwarding them to you also, though you did not yet ask for it. If you should not need them, please do not trouble to return them.

I enclose copies of

1) Life and publications Prof. W. Rosenthal
2) Copies of certificates and degrees " " "
3) Translations of " " " " "
4) Letter of recommendation from Prof Ledingham, Director of the Lister Institute

5) Life and Publications Louis Rouhet. German
6) Copies of Certificates and degrees " " "
7) Translation " " " " "
8) Letter of Recommendation from Dr. Middleton
Medical Inspector of factories Home office
9 Letter of Recommendation from Sir Leonard Rogers
Medical adviser to the Secretary of the State for India

I know the one difficulty is the age of my husband, though he looks and is much younger than his age. In the last two years my husband and I made a special study of working conditions under very heated conditions in factories and he was able to withstand marvellously these conditions which were considered to be very trying.

Sir Leonard Rogers, who knows India, alone and to whom I spoke about these questions told me that he would not find any objection against my husband's going to a place in India, which is so healthy as f. i. Bangalore.

if the State of Mysore would raise an
tion of giving a fixed appointment to a
of his age, I suggest his going as
ist professor to the State for a years'
in this time he could be useful in
the State in building up the Sanscrit
ute and giving lectures on this subject
after this time we could see how he
es with all the conditions.

I am returning to Germany on Wednesday.
you write to me please will you address
letter to my friend Mrs. Mitchell - London
th Crooked Road S. E. 21, who will know
best way she can best forward letters to
to Germany.

Sincerely yours
Erika Rosenthal-Hennessen

Miss Ismail
Mysore.

India Office,
Whitehall,
London, S.W. 1.

19th June, 1933.

Dr. Erika Rosenthal-Deussen has done valuable work in Industrial Hygiene and has lost an important position in Germany on account of her nationality.

She speaks and writes English well, and her age is 37, she looks active and healthy, and in view of her high qualifications and great experience I consider her services would be of great value to any progressive Indian State, especially in connection with Child Welfare work.

Her husband, Professor Rosenthal, is a well-known bacteriologist, age 60, who would be accompanying her.

(Signed) LEONARD ROGERS,
M.D., F.R.S.

Major-General I.M.S., rtd.,

Professor J.C.G.LEDINGHAM,
C.M.G., M.B., F.R.S.

The Lister Institute,
Chelsea Bridge Road,
London, S.W. 1.

17 June, 1933.

Professor Werner Rosenthal of Gottingen University has contributed very largely to the literature of Bacteriology, Immunology, and Industrial Hygiene during his career as a teacher and director in various institutes of hygiene and applied bacteriology. Much of his work especially that relating to the carrier-problem, to serology and to problems concerned with the filterable viruses is well known to me and though I cannot write of Prof. Rosenthal from personal knowledge, I feel confident that a man of his wide experience would prove a valuable asset either in the teaching sphere or in the organising and planning of an Institute of Hygiene.

(Signed) J.C.G.LEDINGHAM.

Prof. Werner Rosenthal M D

Life and Publications

5 p.

June 2nd 1933

Life of Prof. Dr. med. Werner Rosenthal.

I was born June 24th 1870 at Berlin as son of Isidor Rosenthal, Professor of Physiology, from 1872 to 1912 ordinary professor of Physiology and of Hygiene at the University of Erlangen, founder and first editor of the Biologische Centralblatt.

I studied medicine from 1888 to 1893 at the universities of Erlangen, Berlin and Kiel, was promoted M.D. 1893 and approved physician 1894 at Erlangen. After the legal service in the army I worked as assistant in different university-institutes for physiology and pathological anatomy in Turin, Freyburg in Baden, Straßburg and Erlangen under Angelo Mosso, Wilhelm Baumann, v.Recklinghausen and Gustav Hauser from 1894 till 1899. 1899 to 1900 I was assistant at the ward of internal medicine of the Municipal Hospital at Frankfurt a.M. under Karl von Noorden. Being there, I was attacked by serious pulmonary phtisis and till 1902 had to cure me, meantime occupied with literary scientific work.

1902 - 1904 I worked as assistant in bacteriological and hygienic laboratories at the universities of Erlangen (Ludwig Heim) and Bâle, since 1904 at Göttingen (Erwin v. Esmarch). In Göttingen I established the diagnostic Station of Bacteriology attached to the Institute for Hygiene and I remained attached at this Institute in various positions. 1907 I became lecturer at the University and I read especially on Immunology and on different chapters of social Hygiene. From 1910 to 1911 during a chronic illness of prof. v. Esmarch I was trusted with all his lectures and courses and with the direction of the Institute for Hygiene. Thereafter 1911 I attained the title "professor". In this period ~~from~~ 1903 - 1913 I was especially concerned also in investigations on serologie, production of highly

effective antiserums, and the problems of phagocytosis and opsonins.

1914-1919 I served in the Army Medical Corps. I was trusted with the direction of ~~different~~ views laboratories for Bacteriological diagnostic, thereafter as chief medical officer of a prisoners encampment, of an artillary battallion anf of a field lazaret, finally as Hygienist to an Army Corps in the defence of the north-eastern frontier of Germany.

1915 I married Erika Deussen, daughter of Prof. Paul Deussen of Kiel, then being student of medicine.

1919 I passed at Berlin the examinations for State Medical Service. 1921 I entered this service at Göttingen and was besides entrusted with Communal Service in Social Hygiene-medical attendance of schools, ambulatory for the prevention of phtisis, surgeon to the police. 1925 I was transfered to Hagen in Westphalia; there I had besides the forenamed duties also the function as physician at the prison and as medical expert to the courts. 1928 I left this service because out of reasons of state economy and on account of my late entry in the career I was not to be promoted in a final and independent office.

1929 I settled in Magdeburg, because my wife was here installed as State official, medical superintendant of industries.

Copy.

This is to say that I know Dr.Erika Rosenthal-Deussen chiefly from the published records of her work on industrial hygiene, and through Gewerbemedizinalrat Dr.Ludwig Teleky of Dusseldorf, whom I have known for about seven years and for whom I have a high esteem.

Dr. Rosenthal-Deussen worked with Dr.Teleky for a year and carried out practical scientific investigations in industrial hygiene, after which she served for nearly 5 years as industrial medical inspector in Magdeburg.

In a personal letter to me dated 1st June 1933, Dr.Teleky says that in her work in Magdeburg, where she was especially concerned with the welfare of women, children and young persons, Dr.Rosenthal-Deussen achieved signal success. She has exceptional ability in her medical work and is an energetic and industrious worker.

From what I know of Dr.Rosenthal-Deussen's work and the high opinion given by Dr. Teleky, I feel sure that she would prove to be a capable and energetic worker in the field in which she now seeks to serve.

(Signed) E. L. MIDDLETON, M.D.

Life and Publications

LIFE AND CAREER OF DR. ERIKA ROSENTHAL-DEUSSEN.

I was born Sept.9th 1894 at Kiel as a daughter of the professor of philosophy Paul Deussen. I passed the examinations for the admission to the universities at Leipzig eastern 1914, studied medicine 2 years at the University of Kiel and then, after marriage, at the University of Erlangen. I passed the preliminary examination for students in medicine (Ärztliche Vorprüfung) July 29th 1916 at Erlangen with the mark "good" and the final medical examination (Ärztliche Staatsprüfung) Nov.25th 1919 at Erlangen. After absolving the prescript year of medical assistance in the wards of University Clinics at Erlangen I got the legal approbation as a physician dated from Munich Jan.13th 1921 with the mark "very good" and the degree of Doctor of Medicine from the Faculty at Erlangen Oct.21st 1921 with the mark "very good".

Dec.31st 1915 I had married Prof.Dr.med. Werner Rosenthal of the University of Göttingen and I have born three daughters Dec.30th 1916, Aug.5th 1918 and Nov.17th 1922, who are living with us.

During the years 1921 - 1926 I worked in volontary assistance in divers University Hospitals at Erlangen and Göttingen, especially in the wards of ophtalmology, rhinology, internal medicine, dermatology and in the laboratory for bacteriologic diagnostic aid in epidemic diseases (Medizinal-Untersuchungsamt) attached to the Hygienic Institute of Göttingen. From Oct.1924 till Oct.1925 one year I assisted in the gynecological and the obstetrical wards of the Universitätsfrauenklinik at Göttingen and May till Sept.1926, five months at the obstetrical wards of the Communal Hospital of the City of Dortmund.

In the same years between 1921 and 1926 from time to time I assisted or supplied my husband in his functions as a communal medical officer - in the public vaccinations, medical attendance of schools, advisory ambulance for tuberculosis, medical inspection of prostitutes.

1926 - 1928 I prepared myself for the examinations for the State Medical Service. For twice three months, Sept.- Dec.1926 and May - July 1927 I absolved preparatory and informatory courses at the Academy for Social Medicine (Postgraduate Medical School) at Düsseldorf. Three months Febr.- May 1927 I served as a volontary in the Lunatic Asylum at Göttingen, and besides writing the examination-papers I was concerned in scientific investigations with the Landesgewerbearzt (Medical Superintendant of Industries) Dr. Teleky at Düsseldorf and in reviving my practice of pathological anatomy and legal medicine in the Pathological Institute of prof. Ludwig Pick at Berlin.

Oct.27th 1928 I passed the examinations for State Medical Service at Berlin with the mark "good".

Since Sept.6th 1928 I was trusted with the functions of Gewerbemedizinalrat (Medical Superintendant of Industries) for the region IV at Magdeburg (for the Prussian province Saxony) and Febr.1st 1929 I was regulary installed in this office, after being promoted "Preußische Medizinalrätin" Jan.22nd 1929.

Apr. 12th 1933 I was suspended from my functions in consequence of the fundamental change of government.

CERTIFICATE OF ATTENDANCE AT THE POST GRADUATE SCHOOL FOR SOCIAL HYGIENE.

German Academy for Social Hygiene
in Düsseldorf

Düsseldorf, Dec.22.1926

General Hospitals of the City
1.Building,Witzelstraße

We attest herewith, that Mrs. Erika Rosenthal-Deussen M.D. attended regularily and diligently the courses on Social Hygiene and Social Care from Sept.27. till Dec.22. 1926. These courses instruct on the whole extension of Social Hygiene and Social Provisions for Health and especially on the care for infants, for children in schools, for people menaced by tubercolosis and other dangers, according to the plan of lectures.

Mrs.Erika Rosenthal-Deussen has herewith attained the special erudition, which is postulated for communal officers of health, for school-doctors and for physicians for preventional aid through the ordinance of the Prussian minister for public welfare from Dec.28.1919. The ordinances of the same minister with the sign I.M.I.737 from March 31.1921 and July 14.1921 recommend to the cities and communal authorities at selecting communal and preventional doctors to prefer the applicants having performed the named courses and possessing a certificate of regular attendance. The attendance of the courses also fulfils the request §4 phrase 4 of the ordinance for examination for state medical service.

Dear Sir Philip Hartog,

We are in need of the services of an experienced Pathologist for the Medical College in Mysore. Could you recommend any one? If so, what salary would he expect? Of course, if you are recommending any one from Germany, a working knowledge of English would be necessary. I enclose a note with reference to the post.

Hoping to hear from you soon and with kind regards to you both,

Yours sincerely,

Sir Philip Hartog, KBE, LL.D

"GRACE VILLE," PALACE ROAD,

Bangalore, (S. India), dated.... September 21, *.....193* 3

Dear Dr. Karve,

You gave me this morning certain records and certificates in regard to Professor Rosenthal and his wife. As far as the diplomas and certificates go, there can certainly be no objection to the qualifications of the couple concerned. They are both graduates of well known German Universities, and from the records would seem to have done a great deal of scientific work.

Should Government be considering the establishment of a combined Serum and Public Health Institute, which was proposed some time ago, I should think that Professor Rosenthal would make a most suitable man to organize and direct the work, or that he would be also suitable as Professor of Pathology or Bacteriology in the Medical College.

Most of the work of Dr. Erika Rosenthal-Deussen would seem to have been in the line of Industrial Hygiene. It will probably be a long time before Mysore will need any persons so specially qualified in this subject, as industries in Mysore are not likely to be of so much importance for a very considerable time. It is possible, however, that she could be accommodated in the Department of Health in a Bureau of Maternal and Child Welfare, although her qualifications do not mention that she has special knowledge of these subjects. Such

a proposal, or course, would mean that a new budget would have to be placed at the disposal or the Department of Health.

Yours sincerely,

W. C. Sweet,
Consultant in Health.

Your Excellency!

I have heard that you have returned to your country, and I trust that you will find a place, where our faculties will be useful to your State.

Here nothing has altered for us: at least nothing has become better. As I have heard the Medical authorities of Mysore are Americans from the Rockefeller Intitute. If you would think it to be useful you could have reccommandations for my husband from this Institute as my husband stands in scientific communicationwith some members of the Rockefeller Institute. Up to now I myself have not had any scientific connex with this Institute but I should be very glad to work in near connexion with members of this celebrate Institution.

Do not take me for arrogant when I say that with our experienc and knowledge we could really do good work, and we sincerely wish to do it!

yours very sincerely

Erika Rosenthal-Deussen.

Sir Mirza Ismail,

Please do not think that I have neglected the question
a pathologist. I have been making enquiries and consulting
of the best specialists in London. I hope that I may be
to write or cable to you next week. We have the names
eral people of great experience who are regarded as altogether
ble for the post. I will try myself to interview those
e in London, in company with a pathologist. We are of
very anxious to recommend someone in whom you could have
te confidence.

Yours sincerely,

D Hawley

Dear sir,

I went through the file accompanying your letter of the 10th instant. In your letter I am asked if Dr Erika Rosenthal-Deussen would not do as a Pathologist. I take it that this is a typing mistake for Dr Werner Rosenthal the husband, as Dr Erika the wife seems from the records to have no special qualifications or experience as a Pathologist.

This is regretted

I agree with Dr Sweet's opinion about the suitability of Prof: Werner Rosanthal whose records are very good indeed. The only point that is possibly against him is his age (63 years.), but if he is physically fit, as the wife says he is, he can be of use for a short term of years.

If they are otherwise suitable, the suggested combined remuneration is not at all too much.

I resubmit the file herewith.

Yours sincerely,

B.N. Narayana Rao

MI
14-11-33

Dear Sir Mirza Ismail,

I despatched to you yesterday the following telegram:- "After enquiries can recommend first-rate pathologist Suggest thousand rupees initial salary with travelling expenses Sending details air mail". I now enclose (1) the curriculum vitae, (2) testimonials, and (3) list of scientific publications of Dr. Erich Wolff, who was Extraordinary Professor of Pathology in the University of Berlin. Professor Wolff was interviewed by Professor Boycott, F.R.S., of the University of London, who regarded him as the most suitable candidate for your post, although there were other excellent men on our list. I thought it would be well for me to see Professor Wolff myself, and I saw him and his wife on Wednesday morning last. It was after that interview that I sent you the above telegram. Professor Wolff has, in a remarkably short time, obtained quite a respectable knowledge of English, and will certain get over any kind of difficulty before long. He is perfectly intelligent. I thought him attractive personally, with an assured, though modest, manner, and there can be no question of his technical qualifications.

There is only one point, and that is that he has not yet had experience in tropical diseases, but it is clear that a man of his experience, especially in view of the fact that he has specialised in Bacteriology and Serology as well as in Morbid Anatomy, will soon make up for any deficiency in that special line. Mrs. Wolff speaks English easily, and has done a great deal of technical translation into English, and would obviously be a great help to her husband. They have a little boy of three.

Taking into account the fact that he would have a position to keep up, it seemed to me that a thousand rupees a month would be a reasonable initial salary. I do not know what provision

you make for pension or provident fund, but I should be glad if you could give me particulars of that, and in regard to the tenure which you propose. I suggest that Professor Wolff should be allowed travelling expenses to and from India.

Both Professor Wolff and his wife seem attracted by the idea of a Chair in Mysore, and I feel that they are a couple who would be popular in Indian surroundings. They would be able to go out to India as soon as terms are settled and a decision is reached.

I ought to add that I have had in this matter the great assistance of the Academic Assistance Council (presided over by Lord Rutherford) which has been formed to deal with the academic refugees from Germany, and it is on their recommendation that I am acting.

I am sending this by air-mail.

With kind remembrances, in which my wife joins,

I am,

Yours sincerely,

Philip Hartog.

PS. I notice that the latest testimonial of Professor Wolff is dated 1930, but I have before me a letter from Professor Bäer to the Academic Assistance Council dated 30 August, 1933, in which he recommends Professor Wolff in the warmest terms.

P.H.

ABSCHRIFT

Zeugnis.

Hierdurch bescheinige ich, dass Herr Prof. Dr Erich Wolff seit dem 1 Juni 1919 zunaechst als Med. Praktikant und freiwilliger Hilfsarbeiter, dann seit Herbst 1921 also planmaessiger Hilfsarzt an dem mir bis 1928 unterstellten pathologischen Institut der Universitaet taetig gewesen and seit meiner Entpflichtung noch ist. Er hat sich in Juli 1924 als Privatdozent fuer Allgemeine Pathologie und pathologische Anatomie habilitiert und ist im August 1928 zum n.b.a.o. Professor ernannt worden.

Professor W. hat sich in dieser Zeit eine sehr gute wissenschaftliche Bildung auf allen Gebieten der pathologischen Anatomie und allgemeine Pathologie einschliesslich auch besonders der Bakteriologie und Serologie angeignet. Er hat durch die Fuehlungnahme mit den verschiedene Abteilungen des Institutes auf experimentellen und chemischen Gebiet genuegende Erfahrungen und Unterlagen fuer weiteres Arbeiten erhalten, und er hat sich auf dem anatimisch histologischen Teil der pathologischen Wissenschaft solche Erfahrung und praktische Geschicklichkeit angeeignet dass ich ihm bereits in November 1925, nach einem Abkommen der chirurgischen Klinik in der Ziegelstrasse, Geheimrat Bier, mit der Wahrnehmung der Prosektorgeschaefte an dieser Klinik und gleichzeitig auch der III medizinische Klinik betrauen konnte. Er hat diese Prosektortaetigkeit selbststaendig und zu meiner vollsten Zufriedenheit ausgefuehrt, neben der sonstigen Taetigkeit im Institut.

Professor W. hat ueberhaupt waehrend der laengjaehrigen Taetigkeit an dem Institut durch sein ganzes Verhalten, und besonders sein grosses wissenschaftliches Interesse, Streben und Begabung meine vollste Zufriedenheit erworben. Seine wissenschaftlichen Arbeiten (etwas ueber 30 an der Zahl) erstrecken sich auf sehr verschiedene, grundsaetzlich wichtige Gebiete der allgemeinen Pathologie und pathologischen Anatomie und zeichnen sich durch Schaerfe und Klarheit der Fragestellung , sowie durch folgerichtige Durchfuehrung der Gedenken aus.

Professor W. hat sich auch als akademischer Lehrer und Pruefer bewaehrt, sodass ich ihn auch auf beiden Gebieten in Erkrankungsfaelle mit meiner Vertretung beauftragen konnte. Ich halte demnach Professor W. als nach jeder Richtung hin geeignet, die Leitung eines grossen Pathologischen Institutes zu uebernehmen und bemerke noch, dass sich die Zusammenarbeit mit den uebrigen Hilfsaerzten des Institutes so wie denen der Kliniken der Charite und der Ziegelstrasse durchaus reibungslos gestaltet hat.

CURRICULUM VITAE OF PROFESSOR ERICH K.WOLFF

London address: Zoffany House, 65 Strand-on-the-Green, Londo W.4.

Age: 40 years

Appointed Privat Dozent for General Pathological Anatomy at the University of Berlin.

Appointed Professor Extraordinary at the University of Berlin in the same subjects.

Was for 10 years assistant of Professor Lubarsch in the University of Berlin, and acted as his substitute for 18 months.

He became Director of the Pathological Institute of the Hospital under Professor Bier and of the Hospital for Tuberculosis of the City of Berlin.

He has worked at Pathological Anatomy, Bacteriology, Serology and has had much practise in teaching students of medicine and also students of dentistry.

A B S C H R I F T.

Zeugnis

Charité
11 medizin. Univers. Klinik. den 13. 8. 1925

Herr. Priv. Doz. Dr Wolff ist mir seit eine Reihe von Jahren nicht nur als fleissiger Arbeiter und einwandfreier Charakter bekannt, sondern ich habe besonders seine spezielle Arbeitsrichtung auf dem Gebiet der Infektions- und Stoffwechsel-Pathologie schaetzen gelernt, die durch enge Verbindung van pathologischer Anatomie und Klinik fuer letztere besonders wertvoll und anregend war.

Ich glaube betimmt, dass er nach Massgabe seiner Kenntnisse und Faehigkeiten durchaus geeignet ist, die Stelle eines Vorstehers einer pathologischen Abteilung zu bekleiden. Seine Arbeit wird insbesonders von grossem Nutzen fuer fie klinischen Stationen sein.

Der Direktor den 11 medizin. Klinik
gez. Prof. Fr. Kraus
Geheimer Medizinalrat.

ABSCHRIFT.

Chirurgische Universitaetsklinik
Ziegelstrasse 5 - 9

Berlin N.24. d. 22.4.30

Z E U G N I S.

Herr Professor Dr Erich Wolff ist seit dem 1.11.24 als Prosektor an der mir unterstellten Chirurgischen Universitaetsklinik in Berlin taetig.

Herr Prof. W. hat seinen Posten in hervorragender Weise und zu meiner vollsten Zufriedenheit ausgefuellt. Er seziert schnell und geschickt und liefert den die Praxis ausuebenden Aerzten schnelle und zuverlaessige Untersuchungen und Diagnosen. Durch seine eigenartige Stellung ad der Klinik wirde er oft auch zu Operationen und Untersuchungen herangezogen und lernte so die Beduerfnisse der praktischen Krankenbehandlung weit besser kennen, als die pathologischen Anatomen, die den gewoehnlichen Weg vom Assistenten eines pathologischen Institutes zu einer Krankenhaus Prosektur gehen.

Herr Prof. W. will sich nach einer neuen Stellung umsehen, da die Prosektur der Chirurgischen Universitaetsklinik keine Lebensstellung ist.

Ich kann Herr Prof. W. nur allerbestens empfehlen. Ich selbst wuerde bedauern, wenn ich ihn vor meinem am 1.4.31 erfolgenden Abgange aus dem Amte entbehren muesste, wuensche ihn aber Erfolg mit meiner Meldung und bin gern bereit, ihn jederzeit, wenn noetig, von seinen Verpflichtungen hier zu entbinden.

gez. Prof. Dr A. B i e r

Geheimer Medizinalrat.

LT.-COL. SIR HENRY GIDNEY KT.
M.L.A., J.P., F.R.S. (E.), I.M.S. (RETD.)

24th November 1933.

My dear Hutga.

I had the pleasure of sending you a cable two days ago, recommending Dr. Erich Wolff, who, I understand, has been recommended to you by Sir Philip Hartogg, for the appointment of Professor of Pathology at Mysore University.

I know Dr. Wolff to be a man with eminent professional attainments and experience and, in every way, suitable for the appointment he seeks. He is a German by domicile, but not by birth. He belongs to the same nationality as Sir Philip Hartogg, but is a Christian in religion. His record of scientific work would be a credit to anybody. He is at present living as a guest, with Sir John Simon's son-in-law, having left Germany in consequence of the Nazi troubles. This I think, should be sufficient for his bona fides.

If I may be permitted to add a personal note, I think you would be extremely fortunate if you were able to secure his services.

And now about your Medical School. When I was last at the Conjoint Board, in the Royal College of Surgeons' Office, I was consulted about an application submitted by your Medical Faculty to the Royal College of Surgeons, for affiliation and recognition and was asked my opinion about it. My reply was short and to the point that, anything from Mysore under the Chairmanship of Sir Mirza Ismail, is as good as the best you can get in India and not to be doubted in the slightest. You will, therefore, be glad to know that the Conjoint Board have favourably considered your application and are thinking of asking Colonel Needham to formally inspect your standards of Medical education with a view to giving your School and Faculty, recognition. I had a long talk with Sir Findlater Stewart about Bangalore and he showed me some recent correspondence on the matter.

LT.-COL. SIR HENRY GIDNEY KT.
M.I. A., J.P., F.R.S. (E), I.M.S. (RET'D.)

I hope to be out in India early January and my address will be,

87A Park Street,
CALCUTTA,
India.

I propose to visit the South of India towards the end of January when, if you will have me, I shall be glad to pay you a visit.

I hope you are well and with my kind regards,

Yours very sincerely,
Henry Gidney

Dear Sir,

When the Dewan spoke to me on the 9th, about Professor Rosenthal and his wife, I had forgotten the Professor's qualifications and also my previous remarks on the subject. On going over the file again, I think that Professor Rosenthal will serve very acceptably as Professor of Pathology and Bacteriology in the Medical College.

I see that in my previous letter I stated that it might be possible to accommodate Dr. Erika Rosenthal-Deussen in a Bureau of Maternal and Infant Hygiene. I should like to urge again that, if this position is offered to Dr. Erika Rosenthal-Deussen, she be appointed Superintendent of a Bureau of Infant and Maternal Hygiene under the Director of Health. Infant and Maternal Hygiene is one of the more important subjects of a Department of Health and, should such work be more fully organized in the State, I am sure that it will be a serious administrative mistake to allow it to grow up entirely separated from the Department of Health. It is only by means of a Government department, in which more or less permanency is assured, that such important work can be carried on year after year at the same level of efficiency. Voluntary efforts along these lines are quite possibly very efficient for a time but depend too much on individual interest and enthusiasm. I sincerely hope that if Dr. Erika Rosenthal-Deussen

is appointed to such a position, it will be in the Department of Health.

I note that recommendation has been made to pay the Drs. Rosenthal a joint salary. I feel that this will be a mistake, as the question of their payment is sure to arise again should Dr. Werner Rosenthal decide that he had reached an age at which he should retire. I would recommend, then, that Dr. Erika Rosenthal-Deussen be appointed a First Class Health Officer on the recognised pay of Rs 400-30-700. As I do not know how salaries run in the Medical College, I cannot recommend in regard to the position of Professor of Pathology.

Yours sincerely,

W. C. Sweet,
Consultant in Health.

WCS:VS

1535

14th December 1933.

My dear Gidney,

I am much obliged for your letter of November 24, in which you refer to Dr. Erich Wolff. We are thinking of getting a Jewish couple from Germany; the husband for the post of Pathologist and the wife for that of a Health-Worker. She is evidently well qualified for that. They would be much less expensive than Dr. Wolff, who expects an initial salary of at least P. 1,000 a month. This would be too much for us. So I am writing to Sir Philip Hartogg explaining our reasons for not taking him.

It was very good of you to put in a word on our behalf to the Conjoint Board of the Royal College of Surgeons, and I am most grateful to you for your action as well as your

reference to me personally. I know you are a true friend and always willing to help.

As regards the C. and M. Station, there is every hope that the question will be settled in the next two or three months, with, I am sure, happy results for the inhabitants of that area.

Do pay us a visit - the sooner the better and the longer the better. You will be most welcome. You must go to Mysore too. Looking forward to seeing you here [redacted]

With kindest regards, Yours sincerely,

Sd/ H. M. D

Dear Sir,

Sale 25 19.12.33.

In my letter No.716 dated December 11, 1933, I suggested that Dr. Erika Rosenthal-Deussen be given a position in a Bureau of Infant and Maternal Hygiene. If it could be arranged for Dr. Rosenthal to come to Mysore via Ceylon and to have two weeks or a month in Colombo observing the work of the rural health units in infant and maternal hygiene, I think it would be an excellent thing. This work, as done in the rural health units of Ceylon, is very efficient and up-to-date, and I am sure that Dr. Rosenthal will profit by a visit there. Should it be possible for this to be arranged, I would be glad to write a letter to Doctor W. P. Jacocks, who will be able to make arrangements for Dr. Rosenthal's visit.

Dear Sir,

I acknowledge receipt of your cablegram dated the 15th of December in regard to the proposed appointment of Professor and Mrs. Rosenthal.

I have been in communication with them and also with Dr. Robinson who has fortunately just returned from America. The correct name is - Erika Rosenthal-Deussen, and the address is - Breiterweg 135, Magdeburg.

I received a letter from Madame Rosenthal-Deussen saying that she would come to London first to be seen by Dr. Robinson, and that the professor would follow after she got back to Magdeburg, the reason being that they are running a small panel practice and cannot both leave together. After discussing the question with Dr. Robinson, I have written to Prof. Rosenthal-Deussen, telling him that neither he nor his wife need come to London as Dr. Robinson will see them in Magdeburg. It appears that Dr. Robinson has to visit Brussels in connection with the purchase of some Radium and he will take that opportunity of going on to Magdeburg. He promises to go between the 6th and 10th of January. On receipt of his medical report on the Rosenthal-Deussens, I shall cable to you before definitely offering them the appointment that you refer to in your cablegram. On receipt of this, I presume you will instruct me as regards paying

R/S.

December 22nd, 1933.

SIR M. I.

The Chief Secretary to the Government of
His Highness the Maharaja of Mysore.
BANGALORE.

Dear Sir,

I acknowledge receipt of your cablegram dated the 15th of December in regard to the proposed appointment of Professor and Mrs. Rosenthal.

I have been in communication with them and also with Dr. Robinson who has fortunately just returned from America. The correct name is - Erika Rosenthal-Deussen, and the address is - Breiterweg 135, Magdeburg.

I received a letter from Madame Rosenthal-Deussen saying that she would come to London first to be seen by Dr. Robinson, and that the professor would follow after she got back to Magdeburg, the reason being that they are running a small panel practice and cannot both leave together. After discussing the question with Dr. Robinson, I have written to Prof. Rosenthal-Deussen, telling him that neither he nor his wife need come to London as Dr. Robinson will see them in Magdeburg. It appears that Dr. Robinson has to visit Brussels in connection with the purchase of some Radium and he will take that opportunity of going on to Magdeberg. He promises to go between the 6th and 10th of January. On receipt of his medical report on the Rosenthal-Deussens, I shall cable to you before definitely offering them the appointment that you refer to in your cablegram. On receipt of this, I presume you will instruct me as regards paying

The Chf. Secty.
to Govt.,

22. 12. 33.

their passages in the event of their accepting the appointment.

This letter will reach you on January 2nd, and I shall hope to send you a cablegram by about the 10th of January, after Mr. Robinson has visited Magdeburg.

Yours faithfully,

By.Trade Commissioner
for Mysore in London.

will be available if your State
Govt. Government desire to
secure his services.

Knowing as I do your other
branches of technical services, how
difficult it is to get a first-class
man, I venture to impress on you
the need for an early decision in
regard to this post. In any case,
Mr. Wolff would like to know your
decision at an early date. You will
kindly write or cable to Sir Philip
Hartog (who is expected to return to
London by the middle of January)
when you come to a decision. May
I also know what you decide about
appointing Mr. Wolff?

The Joint-parliamentary
Committee is now on Burma. Her
separation has become a financial
problem, and if she is not separated
from India, a fresh question in regard
to federation will arise. I leave a

Dec. 28, 1933.

My dear Sir Reiza,

Once again I am back in London after attending a meeting of the Committee of the League's Intellectual Cooperation.

Very recently I met there Professor Dr. Ewrich Wolff (whose card I enclose) of whom you must have heard from Sir Philip Hartog. I understand Sir Philip wrote to you in response to your enquiry about securing an efficient pathologist for your Medical College. I have also come to know that in view of dearth of able men now available for appointments in the tropics, Dr. Wolff has had urgent enquiries from the Government of Ceylon. Happily the decision of that Government is postponed (owing certain exigencies of circumstances in the departmental administration, I believe) and Dr. Wolff

10th January 1934.

No 1883

My dear Dr. Gangulee,

Many thanks for your kind letter of December 28. It was a great pleasure to hear from you.

As regards Dr. Erich Wolff, we found him a little too expensive a man for us. It was with great regret that we had to give up the idea of entertaining him and to think of some one else - also a German Jew. I have written to Sir Philip Hartog accordingly.

Aren't you returning to India at all? I read the article contributed by you to the Morning Post some time ago, in which you had a dig at me.

I don't suppose the Chancellor of the Chamber of Princes is likely to go to London to interview the Joint Parliamentary Committee. He has plenty to do in his own State. Moreover, the Chamber itself is a dying institution and has lost all its prestige. The sooner it is buried and forgotten the better for the Princes.

With all good wishes and kindest regards,

Yours sincerely,

Sd m. m. l

BANGALORE.

Dear Sir,

Prof. and Mrs. Rosenthal.

Referring once more to your cablegram dated the 15th December, and my letter dated the 22nd December, I regret I have not written to you again in the meantime. This is due to the fact that Dr. Fletcher Robinson is only leaving England to-morrow on his way to join a ship at Marseille. He is going to Magdeburg to see the Professor and Mrs. Rosenthal. He promises to cable to me from Berlin on Monday, the 29th, and I will pass on the information contained in his cable to you and await your definite instructions as to the terms to be offered to the Rosenthals.

In my letter of the 22nd December I mentioned that I would cable to you on the 10th January. This was not possible in view of the postponement of Dr. Robinson's visit to Magdeburg.

Yours faithfully,

Dy. Trade Commissioner
for Mysore in London.

Mysore,
23.2.34.

My dear Sir Mirza:

In regard to Dr. Rozenthal, I do not find anything definite in his records relating to special training or experience in pathology. There is a mention of his having been under Prof. von Recklinghausen and I think he was more a clinician than a pathologist.

I feel it would be wise to obtain information as to whether Dr. Rozenthal has had special training in pathology which would entitle him to teach pathology; and also to ascertain whether he has taught pathology. He is, evidently, purely a bacteriologist.

I was not aware that the pathologist & bacteriologist for the one he was intended to fill might easily have enquired of this when I saw Dr. Rozenthal.

The training of Dr. Wolf is on the lines of pathology & he would be a very valuable person to be a judge, from perusal of his records. However, the expense is the rub there, I presume.

It might be that Prof. Rozenthal is capable of filling the position as

pathologist but it is not
evident from the papers sent by
you & herewith returned

Yours sincerely

17 MAR. 1934
No. 1016

My dear Mirza Ismail,

Forgive me returning to an old subject - I refer to the correspondence you have had with Sir Philip Hartog regarding Dr. E. Wolff for the post of Professor of Pathology which is vacant in the Mysore University. I have heard from Dr. Wolff in reply to the one I wrote to him informing him that you considered the salary too high. He informs me that he was averse to Sir Philip Hartog mentioning any salary, because he felt sure that you would generously recognise his abilities and offer him a suitable salary, even though it be below £ 1000 per annum. Indeed he has expressed his willingness to accept less than that amount.

The only reason I am pressing his candidature on you is, because I firmly believe that, if the Mysore State secures the services of such a brilliant research worker, your University will leap into fame so far as Pathology and Research are concerned.

SIR HENRY GIDNEY KT.
87A, PARK STREET,

Calcutta, 193 .

Dr. Wolff is one of the best research workers Germany has ever produced and his wife is quite capable of undertaking the work that you expect from the wife of the other man you have in ~~your~~ view. Believe me, I am giving utterance to no exaggeration when I say that you will not find the equal of Dr. Wolff in any part of England, and I would, therefore, urge on you to reconsider your decision, offer him a lower salary and engage his wife *too*.

Dr. Wolff's present address is 8, Kensington Garden Square, London, W. 2. As it is likely that the Indian Research Institute will offer him an appointment shortly I would advise you, if you are anxious to secure his services, to cable him offering him and his wife a salary which you think suitable.

Yours sincerely,

Henry Gidney.

Sir Mirza Ismail, Kt., OBE.,

~~9TH PARK-STREET.~~
Western Hostel,
New Delhi, ~~Calcutta,~~ 2nd April 1934.

Dear Sir Henry Gidney

Just a short letter to enquire if you have come to a final decision regarding Dr. and Mrs. Wolff. I understood you to say you were prepared to offer them for their conjoint services - he as Professor of Bacteriology, etc. and she as in charge of your Red Cross work - a monthly salary of Rs. 800 with a free house which I take it includes free lighting and water also. If this is so, I shall try and get them to accept it, but, judging from the very exceptional standard of both of their qualifications (Mrs. Wolff is an extraordinary capable and charming lady) I would suggest you offering them a conjoint salary of Rs.1000 p.m. and they would be dirt-cheap at this valuation. This might be divided as follows: Rs. 750 p.m. to Dr. Wolff and Rs. 250/- p.m. to Mrs. Wolff. Believe me, and I advise you as a sincere friend and well wisher to elevate your University standard, your State will be very lucky if you get Dr. Wolff, for his appointment

LT.-COL. SIR HENRY GIDNEY KT.
M.L. , J.P., F.R.S., (E.) I.M.S. (RETD.)

87A, PARK STREET.

Calcutta,..... 193

would at once elevate your medical university and compel its recognition by all medical faculties in India and England. Please let me know by return post or wire, and if you have decided, or perhaps you would write personally to Dr. Wolff or cable him, lest he accepts the Ceylon appointment or the one the Government of India is thinking of offering him, if Sir John Simon's letter on his behalf to Lord Willingdon materialises.

With my kindest regards,

Henry Gidney.

My dear Mirza,

In connection with the question of the employment of the Lady Superintendent of Maternity and Child Welfare work for the State I enclose herewith a letter from Miss Norah Hill replying to one which I wrote asking her whether she could suggest any suitable candidate for the post. You will see that she considers such posts extremely difficult to fill. I have discussed the question both with the Committee and with the General Meeting of the Red Cross without deriving much assistance. I am not taking any further action pending hearing what you propose to do regarding Mrs. Rosenthal.

Yours sincerely,

18th. May, 1934.

No. 20.

Dear Sir Charles,

In reply to your letter to me dated May 3rd. regarding a lady superintendent of maternity and child welfare work for Mysore State, I am afraid I can recommend nobody suitable for this post at the moment. It is possible, however, that a suitable lady doctor (Anglo Indian) may be available from the All-India Institute of Hygiene, Calcutta, on September the first next. This lady, Mrs. Chadwick, is now completing the course on maternity and child welfare at the All India Institute having already had considerable experience, I understand, and she should be very suitable, but, I am afraid, has no knowledge of Kanarese. It is not quite certain whether she will be available, but I will let you know so soon as I hear from you whether you think you could wait or fill the post temporarily. Such posts are extremely difficult to fill and the new course at the All-India Institute is specially designed to equip lady doctors for this type of work.

Yours sincerely,

for Director.

At our last general meeting, the question of having a Lady [illegible] Maternity & Child Welfare work was considered. It [illegible] Government may be approached to provide one such. I do not know if this matter has been further taken up. [illegible] I know there is no qualified Medical woman, [illegible] Maternity and Child Welfare work, available in the State [illegible] the Calcutta Institute of Hygiene and Public [illegible] be prepared for more or less long. The minimum [illegible] required is M. B., B. S. of a recognised University. [illegible] is there are any women in the Service who could [illegible] for such a course. We have replied that none are available [illegible] such as we have to give a fellowship to a Lady [illegible] for training in Calcutta, it may be possible to advertise [illegible] candidate.

I am enclosing for your perusal the prospectus of all the [illegible] to visit, and Child Welfare at the All India [illegible] Hygiene and Public Health, Calcutta.

The cost of the course which extends over 9 months, is not [illegible] to be raised to Rs. 1,500/- including passage to and fro [illegible], in addition to the Tuition Fee.

Yours sincerely,

J. Karve

[illegible], M.B., D.P.H., T.M.,
[illegible] Travancore to visit the Maternity & Child Welfare Centres in Madras and Bangalore, Mysore.

D.O.No.193 27.7.34

My dear Sir Charles,

I am desired to acknowledge the receipt of your letter No. C. 344 dated 25th instant to the Dewan and to state that it is since proposed to get over Professor and Mrs. Rosenthal to Mysore on the terms originally proposed viz., combined salary of Rs.800/- per mensem for three years with free furnished quarters and first class travelling allowances from London to Mysore. Mrs. Rosenthal's services will be available as Organisor of Maternity, Child Welfare and other work and Professor Rosenthal will be Pathologist, Krishnarajendra Hospital and Professor of Pathology in the University.// In the circumstances I am to state that there is no scope for employing Dr. Chadwick here.

Yours sincerely,

RR

GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE

General and Revenue Secretariat

Dated, Bangalore, ~~7th August 1934~~ 8

No. Pol. 137 &/3 CB. 64-34-1

From

R. RANGA RAO, Esq., B. A., B. L.,
Chief Secretary to the Government of His Highness the Maharaja of Mysore.

To

The *Secretary to the Hon'ble the Resident in Mysore.*

Sir,

The Government of Mysore are in need of the services of a competent scientist for employment as Pathologist in the Krishnarajendra Hospital, Mysore, and as Professor of Pathology in the Medical College; and of another suitable person for organising Maternity, Child and other welfare work in the State.

After enquiry, their choice has fallen on the two

Professor Werner Rosenthal, M.D., and his wife Dr. Erica Rosenthal-Deussen, M.D.	marginally noted persons, as being well suited for appointment to the posts referred

to above. They are now residing in Magdeburg, Germany, unable to obtain suitable employment there on account of their Jewish nationality, and their services can be procured on comparatively easy terms.

Dr. Erica Rosenthall, M.D., is the daughter of Professor Paul Deussen of Kiel (the great Sanskrit Scholar). She is now about 40 years old. She has passed the examination for State Medical Service at Berlin with the mark "good",

P.T.O.

and served as Medical Superintendent of Industries, Magdeburg from September 1928 till April 1933. She has good experience in the field of industrial hygiene as well as other welfare work.

Her husband, Professor Werner Rosenthal, M.D., is the son of Isidor Rosenthal, Professor of Physiology, and has had varied experience of Bacteriological work in several University Laboratories in Germany, and also as a University Lecturer and Professor. They have been highly spoken of by various persons among whom may be mentioned Major General Leonard Rogers, Medical Advisor to the Secretary of State for India, Professor J.C.G.Ledingham, Lister Institute, London and Mr. C. F. Andrews. Their testimonials are enclosed.

The Durbar propose to employ Professor Werner Rosenthal as Pathologist in the Krishnarajendra Hospital and Professor of Pathology in the Mysore University, and the services of Dr. Erica Rosenthal will be utilised for organising maternity, child and other welfare work. The terms of their employment will be as indicated below:-

1. Salary:- Rs.400/- per mensem, for Professor Werner Rosenthal.
   Rs.400/- per mensem for Dr.Erica Rosenthal.
2. Period of employment:- Three years.
3. Leave.
4. Travelling Allowance. According to the Mysore Service Regulations.
5. Other easements:-
   (i) Rent-free quarters at Mysore.
   (ii) First Class Travelling Allowance for both to join duty in Mysore.

I am to request that the sanction of the Government of India may be kindly obtained to the entertainment in Mysore Service of the two persons referred to on the terms mentioned above.

I have the honor to be,
Sir,
Your most obedient servant,

(Fair draft) RG
8/8/34.

CHIEF SECRETARY TO GOVERNMENT.

Professor J.C.G.LEDINGHAM,
C.M.G., M.B., F.R.S.

The Lister Institute,
Chelsea Bridge Road,
London, S.W. 1.

17th June 1933.

Professor Werner Rosenthal of Gottingen University has contributed very largely to the literature of Bacteriology, Immunology, and Industrial Hygiene during his career as a teacher and director in various institutes of hygiene and applied bacteriology. Much of his work especially that relating to the carrier-problem, to serology and to problems concerned with the filterable viruses is well known to me and though I cannot write of Prof. Rosenthal from personal knowledge, I fell confident that a man of his wide experience would prove a valuable asset either in the teaching sphere or in the organising and planning of an Institute of Hygiene.

(Signed) J.C.G.LEDINGHAM.

CHIEF SECRETARY TO GOVERNMENT.

B.K.M.2

India Office,

Whitehall,

London, S.W. 1.

19th June 1933.

Dr. Erika Rosenthal-Deussen has done valuable work in Industrial Hygiene and has lost an important position in Germany on account of her nationality.

She speaks and writes English well, and her age is 37, she looks active and healthy, and in view of her high qualifications and great experience I consider her services would be of great value to any progressive Indian State, especially in connection with Child Welfare work.

Her husband, Professor Rosenthal, is a wellknown bacteriologist, age 60, who would be accompanying her.

CHIEF SECRETARY TO GOVERNMENT.

B.K.M.2

Letter dated 30th November 1933 from Mr. C. F. Andrews, 112 Gower Street, W.C.1, London to the Dewan of Mysore.

---

x x x x x

Dr. Erica Rosenthal Deussen, the daughter of Paul Deussen, the great Sanskrit Scholar and lover of India, has written to me again. Her post has now been cancelled in Germany, because she has a trace for semitic blood in her (what a tragedy this is that is being enacted!) I wonder if it will be at all possible for His Highness the Maharaja who is so deeply interested in Sanskrit Culture to find a place for her and her husband in his State. She and her husband are both specialists in tuberculosis.

GEN. & REV. SECTT. 17 AUG. 1934

OFFICE OF THE SECOND MEMBER OF COUNCIL 20 AUG. 1934 No.

To the Chief Secretary
to the Government of Mysore
Bangalore

Dear Sir.

To your cablegram, arrived here August 5th we answered the same day by cablegram that we accept principally the conditions offered to us for both our appointments.

We expect that the permission of the India Government will be granted without difficulty. For any case we add the copy of a letter of recommandation by Sir Leonard Rogers. If necessary we can send the original.

The details which we should like to be put down in our contract are the following:

1) We suppose that private practice will be allowed to us as usual in such positions; of course only in as much as it will not interfere with our official duties.

2) That the first class travelling allowance may include not only the transport of our personal luggage but also of such scientific instruments (f.i. microscopes,), books etc. that we shall need in our appointments and that those may be exempted of any customs.

3) In the case that our contract should not be renewed after 3 years, free passage back to Europe may be accorded to us both.

4) We suppose that the case of severe illness or death of one of us within the three years will be considered in the contract.

Besides these questions about our contract is to be mentioned that we intend to take with us our eldest daughter aged 17 years,

and we suppose that the furnished quarters may be appropriate also for her living there.

Yours faithfully

Dr Werner Rosenthal

To

Dr. Erika Rosenthal-Deussen,

Breiterweg 135, Magdeburg.

Madam,

I am desired to acknowledge receipt of your letter dated 8th August 1934 communicating general acceptance of the terms offered by this Government in regard to the employment of yourself and your husband in the Mysore Service, and making certain suggestions regarding matters of detail for consideration by the Mysore Government. In regard to these latter, I am to state as follows:-

(1) Government will have no objection to allow you private practice provided, of course, it does not interfere with your official duties.

(2) The cost of transport of scientific instruments and books required in connection with your official duties will also be borne by Government. As regards customs it may be stated that no such duties are levied by this Government. If however any customs duty is leviable on your goods in British India, the question of granting exemption from payment of the same is not within the purview of this Government.

(3) Government are also agreeable to grant to both of you free passage back to Europe, should your contract be not renewed after 3 years.

P.T.O.

(4) There is ~~certainly no objection~~ also ~~to~~ your daughter ~~also~~ living with you in the quarters provided for you.

Regarding the marginally noted (*) sentence in your letter, I am to say that it is not clear what exactly this refers to. The salary of each of you has, as already intimated in my cable dated 3rd August 1934, been separately fixed at Rs.400/- per month. If you specifically indicate any other point for settlement in this connection the decision of Government will be communicated to you.

(*) "we suppose that the case of severe illness or death of one of us within 3 years will be considered in the contract"

H. N

I am to add that the formal approval of the Government of India to your employment is expected shortly, and intimation of its receipt will be sent to you by telegram, as stated already in my cable dated 23rd August 1934. It is hoped that you will be able to leave for Mysore immediately thereafter.

H. M

Yours faithfully,

Chief Secretary to Govt.

To the Chief Secretary of the Government of Mysore

Sir,

I acknowledge receipt of your letter dated 29th August and thank you for your statings in regard to the questions mentioned in my letter of the 8th August.

As to the passage :would it be possible to grant free passage also to our daughter?We fear that on account of the restriction for foreign value in Germany we shall have difficulties in procuring the ticket for her.

We are preparing to leave for Mysore.But of course under the circumstances of today there are a number of formalities to be fulfilled before we leave our country and we cannot enter these formalities before the formal appointment is in our hand.But after receiving it it will take about 4 weeks before we can embark.

Certainly a number of minor questions will arise in these weeks, as f.i. the visa of our passports for India,the route to be taken,the declaration for our large luggage (containing the books and the instruments),so that there may be no difficulties at the customhouse in landing -I suppose that these and similar questions will be best arranged with the Trade Commissioner for the State Mysore in London and that you will kindly instruct him, to be helpful to us.

Yours faithfully

Erika Rosenthal-Deussen

CB. Wrote 27/10/1934

CB. The Chief Secretary to the Government of
H.H. the Maharaja of Mysore,
BANGALORE.

Dear Sir,

I beg to acknowledge the receipt of your cablegram of the 15th inst. reading as follows:-

"Employment of Professor and Mrs. Rosenthal sanctioned first class fare to them and second class to daughter allowed render any help required to facilitate their journey to Mysore passports etc."

I wrote to Dr. Rosenthal that I would be prepared to give him any facilities he may require to facilitate his journey to Mysore in regard to passports, etc. I have to-day heard from Dr. Rosenthal that he expects to leave for India per s.s. "Lindenfels" by the Hansa Line, scheduled to leave Hamburg on the 17th of next month. I understand the ship goes to Colombo 25 days late, and to Madras presumably two days afterwards.

Dr. Rosenthal wants me to arrange for some money being paid to him in Colombo. Under

Chief Secretary. 25th Oct. 1934.

the regulations in force in Germany, no resident is allowed to take German currency beyond a specified limit outside the country, and he is also not allowed to have in his possession foreign currency at the time he leaves the country. It is, therefore, necessary to see that Dr. Rosenthal should be given some money after he leaves Germany. I understand from Dr. Rosenthal that he has enough money until he reaches Colombo. I can arrange through Messrs. Coutts & Co. for such amount as he may require, if this should be in order. I have requested Dr. Rosenthal to let me know the amount he may require, which I presume is in addition to the passage money that will have to be paid to the Hansa Line for his steamer tickets. I presume I can arrange for the steamer tickets, two first class for Dr. Rosenthal and his wife and second class for his daughter.

(1)

(2)

Vide Letter dated 2.11.34

I am not aware of the terms under which Dr. Rosenthal has been appointed or the amount sanctioned towards his travelling allowances to take up his post in Mysore, if any. I trust that such amount as the Doctor may require may be arranged to be paid to him as advance for being recovered in due course from his pay.

Dr. Rosenthal has requested me to arrange for his passports and visa through the British Consul in Berlin. I have separately addressed the British Consul in this matter.

Yours faithfully,

U Ramagamma Rao Sahib

Trade Commissioner for
Mysore in London.

BY AIR MAIL.

The Chief Secretary to the Government of
H.H. the Maharaja of Mysore,
BANGALORE.

Dear Sir,

I have received your D.O. letter No.695. C.B. dated the 11th October, giving the terms on which Dr. and Mrs. Rosenthal have been appointed to the Mysore Service.

Dr. Rosenthal claims freightage for his luggage of scientific books and medical and scientific instruments, in regard to which there is no mention in your letter. He requests me to pay him the equivalent in rupees of 2,200 reichmarks, which he says he has advanced to the Hansa Line towards the cost of his passage. I am requesting Messrs. Coutts & Co. to arrange for the payment in Indian rupees in Colombo to the Agent of the Hansa Line on Dr. Rosenthal's account, the equivalent of 2,200 reichmarks.

Dr. Rosenthal suggests that this might be treated as an advance towards the cost of his passage, the details of which may be worked out after his arrival in India. I trust that the action taken by me is in order and will be approved.

I understand from the Passport Control Officer in Germany that a visa has been given to Dr. Rosenthal and that other visas will be given to his wife and daughter in due course.

Yours faithfully,
C. Ranganatha Rao Sahib
Trade Commissioner for
Mysore in London.

To the Chief Secretary of the Government of Mysore
Mr.R. Ranga Rao B.A. B.L.

Send for perusal. The request contained in this letter could be complied with. RR 12/11/34
Dewan.

Dear Sir,

I acknowledge receipt of your letter dated 11th October and the cablegram ,that communicated that the approval of the Government of India to our employment has arrived. 13/11

We suppose that the formal orders shall contain also the date of the beginning of our contract and further details and we hope that they will reach us before leaving.

We booked for the "Lindenfels" of the Hansa Line,leaving Hamburg November 17th and hope to be at Colombo 25 days later. Will you kindly let us know if you or the Dewan want to see us at Bangalore on our way to Mysore. Mail will reach us at Colombo under the address of the agent of the Hansa Line Lyonel Edwards Lim.Colombo.

We thank the Mysore Government for granting the passage to our daughte and thank you for asking the Trade Commissioner in London to be helpful to us.

For our passage we have paid RM 2200 in German currency to the Hansa Line.It will be neither necessary nor convenient for us that this sum is repaid to us before leaving.Our wish is-and so we informed the Trade Commissioner-that the aequivalent of this sum in Rupees may be available for us at Lyonel Edwards Lim.at our arrival at Colombo and that it will be booked as an part of the costs of our journey. The total sum wecannot yet define exactly, because we do not know the amount of freightage from Magdeburg and the costs of our journey on the Indian Continent.

Yours sincerely

Erika Rosenthal-Deussen
